

THE ACADIA FIREPLACE

THE Acadia Fireplace

The Acadia Fireplace Mantel will lend rustic charm and warmth to your home. Its a beautiful combination of our New England Veneer Stone® and rock-edged hearth, mantel and corbels.

While the imposing mantel gives the impression of three massive pieces of granite, it is actually comprised of rock-edged 7" panels to keep the total weight of the fireplace within specifications. Each piece fits together so seamlessly - only you and your stone mason will know the secret.

The Acadia is available in corner and traditional model kits.

On the reverse: the pictured fireplace features a 36" x 44" chimney detail that was added to the standard Acadia Corner Fireplace Kit.

Insert: (Not included) Shown with the beautiful Fireplace Xtordinair 864™ TRV Clean Face GSR2 Gas Fireplace insert. Available from Travis Industries at fireplacex.com

You've never seen cast stone like this.

Our mantels are unmatched in the marketplace and are renowned for their authenticity, exquisite details and creativity.

Our process has taken 25 years to perfect, yet is beautifully simple. Cornerstone Architectural Products manufactures its products using natural crushed marble and granite aggregates to create a superior product that is unrivaled in its consistent quality and ease of installation.
