

THE VINCENZA FIREPLACE

THE Vincenza Fireplace

The Vincenza is a beautifully detailed mantel featuring dentil trim and ornate floral carvings with two Gothic gargoyles flanking the center cartouche. The curved, fluted pilasters are available in a clawed or block foot.

This is a very versatile design. The inside dimensions are easily adapted to the fireplace insert of your choice by trimming the supplied veneer panels to accommodate dimensions up to 53" wide x 44" high.

On the reverse: the pictured mantel and hearth were cast in Traditional Buff with a Travertine finish and features the claw foot design.

Please inquire about custom sizes, colors and finishes.
Sample boards of stone color and finishes available.
